

You are *more* beautiful than you know.

I believe in
the *honest* portrait
inspired by *creativity* and
sprinkled with
mystery and magic.

We will create
something *unforgettable*
together.

Portraits that *uniquely*
capture both your inner spirit
and outer beauty.

My name is Rohina Hoffman and I'm an award-winning, published fine art photographer in Los Angeles, CA. I specialize in portraiture and I'm excited to make artwork of you – for you!

Whether you are commemorating a special milestone, getting your best friends together, honoring your high school senior, or doing a photo session to celebrate yourself, I want you to have photos that you will love.

About Your Bespoke Portrait Experience

Your portrait experience will start with a consultation where we will get to know each other and discuss ideas, hopes, fears, and of course logistics such as location, wardrobe and styling. If you need advice choosing wardrobe, I am happy to suggest options and will even go through your closet with you. Whether we do the photo shoot at your home or at a location that inspires you, I strive to make the actual experience itself memorable.

After your portrait session, we will schedule an in-person viewing session and you will then choose your photos, which have already been carefully edited and retouched.

You only buy what you love! I will be there to offer guidance.

I am extremely passionate about printing. I print for my fine art gallery work and I apply the same aesthetic principles for my clients. Whether you want beautiful wall prints or prints in a custom folio box, I can help you.

“

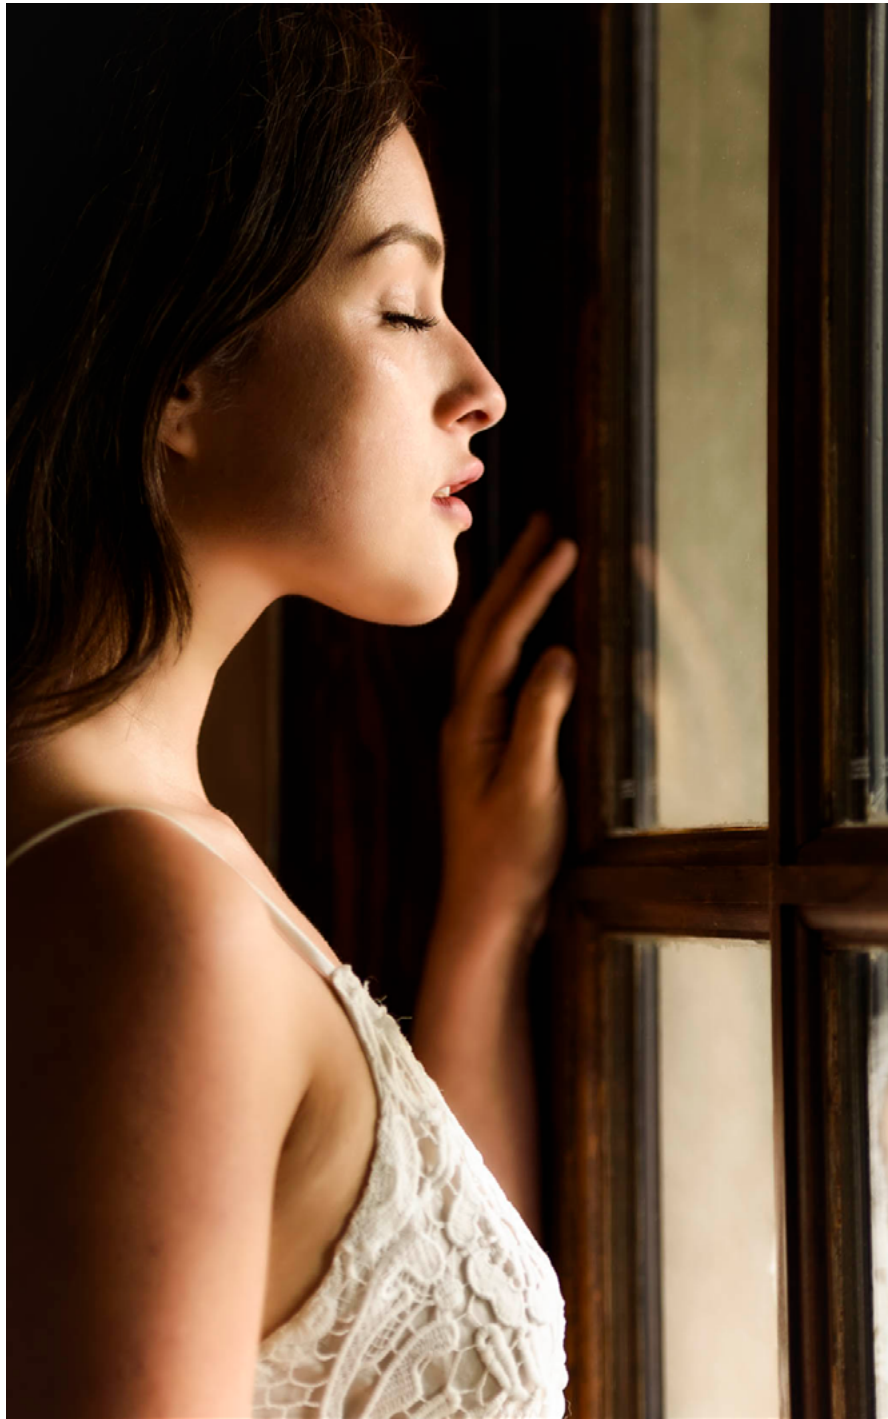

I was a bit nervous and apprehensive before our shoot. I had never done a professional photo shoot before and had not met Rohina in person.

As soon as she came over, I instantly felt more at ease. She is friendly and warm and made the entire experience easy and fun.

And the photos are absolutely beautiful.

”

“

Photographing children and animals are very difficult. Rohina captured memories of a lifetime of my daughter and her horse.

Her patience, calmness and professionalism created the perfect environment for a terrific photo shoot with fabulous results!

”

DEBBIE N.

“

I was very nervous to see my photos since I really am quite shy and not comfortable being in front of the camera. So when Rohina showed them to me, I was BLOWN AWAY. I literally couldn't speak. I went from being worried I would want just one of them to wanting them all!

The photo session was like a whole year of therapy for me. Rohina captured a vulnerability and raw emotion that I don't think I could have found with any other photographer.”

”

“

I had the opportunity to sit for a photo shoot with Rohina Hoffman and what a wonderful experience it was! I'm not usually comfortable in front of the camera, but because Rohina took the time to get to know me prior to the shoot, I felt at ease. She is fun, kind, and creative and made me feel relaxed and beautiful.

The photos did not disappoint. She captured the best of me, while keeping me looking like myself.

The final product was delivered with an eye to detail and elegance.

I recommend her to everyone I know looking for a professional photographer!!

“

Rohina photographed
our family during a very
emotional and transitional
time in our lives.

She captured a true
vulnerability in her beautiful
photos and seeing our
daughter Ava's photos on
display in galleries around
world make us feel so proud.

We are forever grateful
for this memory.

”

“

I had been wanting professional pictures of my two sons for years. The last professional pictures

I had they were babies and now they were 18 and 15 yrs old. My older son was leaving for college soon so I made the commitment to myself to prioritize getting professional pictures done. I'm so thankful that I chose Rohina for the shoot. The whole process from beginning to end was seamless.

I was blown away by the vibrant colors and the varied expressions she captured in my boys.

The photographs were gorgeous! I appreciated that my boys' expressions were natural appearing and did not appear forced. I highly recommend Rohina. She is a true professional and delivers stunning work!
